PROFESSIONAL SUMMARY

Senior UX Designer with 12+ years of experience designing enterprise applications and digital products across SaaS, Insurance and Telecom and Marine shipping,. Experienced in end-to-end UX, from requirement analysis and research through wireframing, prototyping, usability evaluation and developer handoff. Combines human-centered design, visual design and AI-assisted workflows to simplify complex systems and align user needs with business goals.

CORE EXPERTISE

UX Strategy & Problem Solving • User Research & Requirement Analysis • Information Architecture & User Flows • Wireframing & Interactive Prototyping • Usability Testing • Enterprise UX • Design Systems • Responsive UI • Accessibility & HCI • Stakeholder Collaboration • Developer Handoff • AI-Assisted Research & Prototyping

PROFESSIONAL EXPERIENCE

Solverminds Solutions and Technologies | Senior UX Designer

Jan 2021 – Sep 2026 • Marine cargo shipping and data analytics

- Led UX design for marine cargo and vessel-management applications, aligning complex operational workflows with user and business requirements.
- Combined AI-assisted and manual research to translate findings into user flows, wireframes, interactive prototypes and high-fidelity interfaces.
- Applied human-computer interaction principles to improve clarity, usability, accessibility and consistency across product experiences.
- Conducted usability evaluations and worked with developers on design reviews and implementation handoff.

Sapiens Technologies | Senior UX Designer

Mar 2019 – Dec 2020 • Enterprise insurance software

- Designed and prototyped enterprise insurance application interfaces, collaborating with stakeholders to define journeys and interaction patterns.
- Evaluated usability, visual hierarchy and content clarity; developed responsive, reusable interface patterns to support efficient workflows.

IBM India — AT&T Account | Senior UX Designer

2014 – 2019 • Telecom enterprise solutions

- Designed user experiences for enterprise telecom applications, contributing to research, usability studies and interaction design decisions.
- Partnered with engineering teams on implementation reviews and promoted consistent design patterns across complex product modules.
